Highlights of the SHG-Bank Linkage Programme 2012-13

Sr. No.	Particulars	Achievements	
		Physical (No. in lakh)	Financial (₹ in crore)
1	Total number of SHGs saving linked with banks	73.18	8217.25
(i)	Out of total (of which) exclusive Women SHGs	59.38	6514.87
(ii)	Out of total (of which) SGSY SHGs	20.47	1821.65
2	Total number of SHGs credit linked during 2012-13	12.20	20585.36
(i)	Out of total (of which) exclusive Women SHGs	10.37	17854.31
(ii)	Out of total (of which) SGSY SHGs	1.81	2207.47
3	Total number of SHGs having loans outstanding as on 31 March 2013	44.51	39375.30
(i)	Out of total (of which) exclusive Women SHGs	37.57	32840.04
(ii)	Out of total (of which) SGSY SHGs	11.93	8597.09
4	Average loan amount outstanding/SHG as on March 2013 (in ₹)		88455.31
5	Average loan amount disbursed/SHG during 2012-13 (in ₹)*		168757.26
6	Estimated number of families covered upto 31 March 2013	95 million	
7	No. of Banks and Financial Institutions submitted MIS (in number)	400	
8	Data on Joint Liability Groups		
(i)	Joint Liability Groups promoted during the year 2012-13 (lakh)	1.97	
(ii)	Loan disbursed to Joint Liability Groups during the year 2012-13		1837.64
(iii)	Joint Liability Groups promoted as on 31 March 2013 (lakhs)	5.29	
(iv)	Cumulative loan disbursed to JLGs as on 31 March 2013		4683.33
9	Support from NABARD		
(i)	Capacity building for partner institutions		
	Number of Programmes conducted during 2012-13	5501	14.45
	Number of participants covered during 2012-13 (SHG + JLG)	185473	
	Cumulative number of participants trained upto 31 March 2013 (SHG + JLG)	3033243	
(ii)	Refinance Support		
	Refinance released to banks during 2012-13		3916.64
	Cumulative refinance released upto 31 March 2013		22396.24
(iii)	Revolving Fund Assistance (RFA) and Capital Support to mFIs		
	RFA outstanding as on 31 March 2013		33.00
	Capital support outstanding as on 31 March 2013		15.44
(iv)	Grant assistance to SHPIs for promotion of SHGs		
	Grant assistance sanctioned during 2012-13		42.33
	Cumulative sanctioned upto 31 March 2013		226.50
(v)	Grant assistance to JLPIs for promotion of JLGs		
	Cumulative sanctioned upto 31 March 2013		58.24

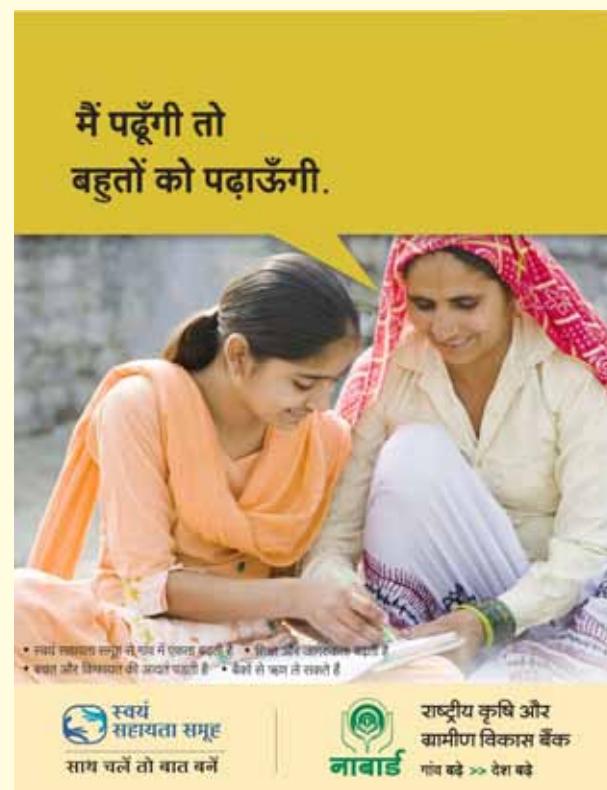

Note : * Average loan amount disbursed/SHG worked out to ₹1.28 lakh if the disbursements of Andhra Pradesh are excluded.

1. Introduction

- 1.1** The journey so far traversed by the Self Help Group – Bank Linkage Programme (SHG-BLP) crossed many milestones – from linking a pilot of 500 SHGs of rural poor two decades ago to cross 8 million groups a year ago. Similarly from a total savings corpus of a few thousands of Indian Rupees in the early years to a whopping ₹27,000 crore¹ today, from a few crore of bank credit to a credit outstanding of ₹40,000 crore and disbursements touching ₹20,000 crore during 2012-13. The geographical spread of the movement has also been quite impressive - from an essentially Andhra Pradesh – Karnataka phenomenon in the beginning now spreading to even the most remote corners of India. Over 95 million poor rural households are now part of this world's largest micro Credit initiative. Unlike similar experiments in other developing countries, the SHG-BLP lay emphasis on regular savings by the members with the savings corpus being used to lend among themselves and as needs arise, later by linking the groups with banks for availing credit. The poor in the country have demonstrated that inspite of being poor, they are, perhaps, the most "bankable" clients and most willing to help each other for a better tomorrow.
- 1.2** There have been many success stories of the poor SHG members showing exemplary entrepreneurial qualities to come out of the vicious circle of poverty and indebtedness with the help of SHGs. The tremendous impact on the social status of the poor rural women becoming bread earners of their households through the instrument of SHGs has been highly commended by many researchers. The impressive performance under SHG-BLP prompted other developmental agencies like the Government Departments to depend heavily on such groups to take the development efforts forward. A large number of service delivery of the Government Departments are now contracted to SHG members in preference to private contractors largely prompted by their devotion and efficiency.
- 1.3** While all the stakeholders of this highly successful micro credit initiative ride on past glory, there are clear signs of the initial excitement turning into pride and then to complacency. The rapid growth of SHG-BLP also led to more aggressive targets – new set of milestones, often at the cost of quality. When the Government decided to adopt this successful development model for spearheading its poverty alleviation programmes, it had to be a big leap – a leap for which the stakeholders were not fully equipped nor was there enough time to prepare the clients for the transformation. The result was an overall dilution in the basic premise of Self Help and group cohesion to achieve the subsidy targets set by the Government. Group formation is increasingly perceived as a means to have access to Government Subsidies and entitlements and thus have serious implications for the future of the movement. This has also led to cases of multiple memberships by members in SHGs, in select cases. Further, the initial emphasis on graduation of the SHG members through regular savings and internal lendings reinforcing cohesion among the members, before accessing credit from financial institutions in progressive doses, gave away to high doses of credit without waiting for the groups to become cohesive and without linking the quantum with their capacity to utilise and service the loans. The financing banks were also ill prepared for the sudden spurt in SHG loans and their monitoring and supervision of such loans became less regular (and even totally absent at times!).
- 1.4** The findings of the two studies taken up by NABARD on NPAs of loans to SHGs by banks bring these structural deficiencies to the fore. The mushrooming of the microFinance Institutions (mFIs) smelling the "business opportunities" with the poor, also led to an unhealthy trend of more and more credit being pumped without proper appraisal of the loanees and before assessing their capacity to repay. The grave crisis of confidence of mFIs and subsequent developments has had a highly negative impact on the micro credit initiative in the country.

¹Extrapolated: 70% goes for internal lending and actual outstanding balance is ₹8,200 crore with the banks.
1 crore = 10 million

- 1.5** Although SHG-BLP was an attempt to bring the “unbanked” poor into the formal banking system and to inculcate among the poor the thrift and credit habits, a natural corollary is for the group members to graduate into seeking more and better livelihood opportunities with access to credit from formal financial institutions. This particular aspect probably did not get the attention it deserved in the past and the result was, as the aspirations of the poor members rose, they were not adequately equipped to seek and adopt better livelihood opportunities or becoming entrepreneurs. A few initiatives by NABARD like demand based skill training and market linkages of SHGs to rural haat have encouraged establishment of micro enterprises by the members of matured SHGs. Even efforts by government programmes like the “Kudumbashree” in Kerala state with the assistance of NABARD commenced a land leasing project by small groups of women in Joint Liability Groups (JLGs). There are over 38000 JLGs in Kerala covering 2.5 lakh women cultivating 24,000 ha of land which forms about 9% of the total current fallow of the state². Thus, government programmes like the “Kudumbashree” have also heralded a new beginning of enterprises through group action.
- 1.6** Though, SHG-BLP is a step towards bringing the “unbanked” poor into the mainstream banking channels, its formal acceptance as a Financial Inclusion (FI) initiative by the Reserve Bank is still awaited. Though several initiatives were taken by the Government of India, the Reserve Bank of India, NABARD and banks to bring the poor into the fold of formal financial service providers, no serious attempt was made to leverage the SHG-BLP to achieve the FI goals. In fact, there is a need for SHG-BLP and FI initiative working in a complimentary manner, synergising the strengths and ensuring effective banking footprints in remotest of hinterlands. A successful programme like SHG-BLP which could link millions of rural poor to formal banking system could have been the main instrument for financial literacy and FI in the country. There are number of plausible ways by which matured SHGs could have been participants in the FI initiative, including being agents of providing direct banking services to the poor at their doorsteps, as a low cost and efficient alternative. This model is certainly more cost effective and reliable alternative to the existing inclusion agenda and millions of households, now members of SHG-BLP, would have been the immediate beneficiaries.
- 1.7** The SHG-BLP though made impressive progress during the last two decades of its existence, is at an inquisitive juncture now. For the first time since the programme was launched two decades ago, the number of SHGs linked to Banks showed a decline during 2012-13. Similarly, fresh loans to SHGs have been near stagnant for last few years, though it showed a marginal rise during 2012-13. From an envious record of almost 100% recovery of loans by SHGs, the NPA³ of SHG loans by Banks have reached an alarming high of over 7% of the loans outstanding against them. More painful is the fact that loans to SHGs in the most resource poor regions in the country reported NPAs of over 10%. Further, as indicated, this potent and effective financial inclusion measure, has not received the attention with bankers presently focused on opening individual accounts through BFs/BCs. However, the solution lies in reinventing the basic principles on which SHG movement

²Source : 12th Five Year Plan (2012-17), Planning Commission, GoI.

³NPAs reported in this document, presents “Gross NPA”

was founded while responding innovatively to financial access and effectiveness through the media of SHGs. The success of SHG-BLP (or FI) will be assessed not on the basis of savings or credit linkage or on social capital leveraged, but on the basis of the improvement in the quality of lives of its members.

- 1.8** Realising the catalysing role it has played in the growth of SHG-BLP and the need to make the programme more relevant for the future, NABARD envisions the following for the ensuing four years:

NABARD's Strategic Focus on SHG-BLP (2013-17)

- All eligible poor rural households in the country to be covered through SHG-BLP by March 2017.
- Resource poor states of Uttar Pradesh, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Rajasthan, Maharashtra, Odisha, Assam and West Bengal to be the focus areas for promotional interventions under SHG-BLP during the next four years. Emphasis would be in 127 districts⁴ from these resource poor States where less than fifty percent of the potential for promotion of SHGs have been exploited, of which 33 districts are already covered under Women SHG Development Scheme.
- Promotion of Women SHGs in 150 Left Wing Extremism affected and backward districts of the country to be speeded up to cover every rural household in the identified districts within the next two years.
- In all, it is expected that about 20 lakh new SHGs are to be promoted and linked to the banks during this period.
- Convergence with Government Programmes like National Rural Livelihood Mission (NRLM) to maximise benefits to the SHG members.
- Strategic shift from State / District-based planning for SHG-BLP to Block-based planning, to address the issue of intra-district imbalances in promotion of SHGs.
- Special schemes to revive dormant SHGs through effective capacity building and hand holding support.
- Initiate additional financial literacy drive at the SHG level to eliminate over-indebtedness at the member-level, especially in high SHG density States.
- Focus on convergence of SHG-BLP and Financial Inclusion (FI) initiatives.
- Priority to shift from promotion of SHGs to provide livelihood opportunities to the SHG members in a calibrated manner through skill building, production optimisation, value chain facilitation and market linkage.
- Community based organizations to be encouraged as the nodal points for promoting livelihood activities of members of SHGs.
- ICT based interventions at primary level (SHGs), promoting institutional level (SHPIs) and at National level.

⁴Assessed based on mapping of district-wise potential for SHG coverage vs Savings linked SHGs.

- 1.9** No discussions on microfinance in international fora are complete without reference to India's experience in the Sector. NABARD had been publishing data on microfinance in India every year alongwith an analysis of the data compiled through various stakeholders like partner NGOs, financial institutions, Government Departments, etc.⁵ In addition to the analysis of data on the extent of savings harnessed by the SHGs, the credit availed by the groups from banks. The publication also covers the debt sourced by micro Finance Institutions (mFIs) across banks, besides highlighting the facilitating role played by NABARD for the sector.

1.10 Progress under microFinance during 2012-13

An update on microFinance as at the end of March 2013 is being presented in 3 different sections. The progress under the SHG-Bank linkage programme has been covered in the first part, while the extent of debt leveraged by micro Finance Institutions (mFIs) from banks etc. has been covered in the second part. Various innovative initiatives and support services like capacity building of all stakeholders of micro Finance programme forms the final part. More detailed statistical information on the progress of these activities has been presented at the end of the report. The report also covers the district-wise coverage of SHGs (savings linked) across the country. The SHG coverage has been mapped against the potential available. The report also presents fact sheets of 10 priority states to facilitate strategic planning by stakeholders for expansion of the programme.

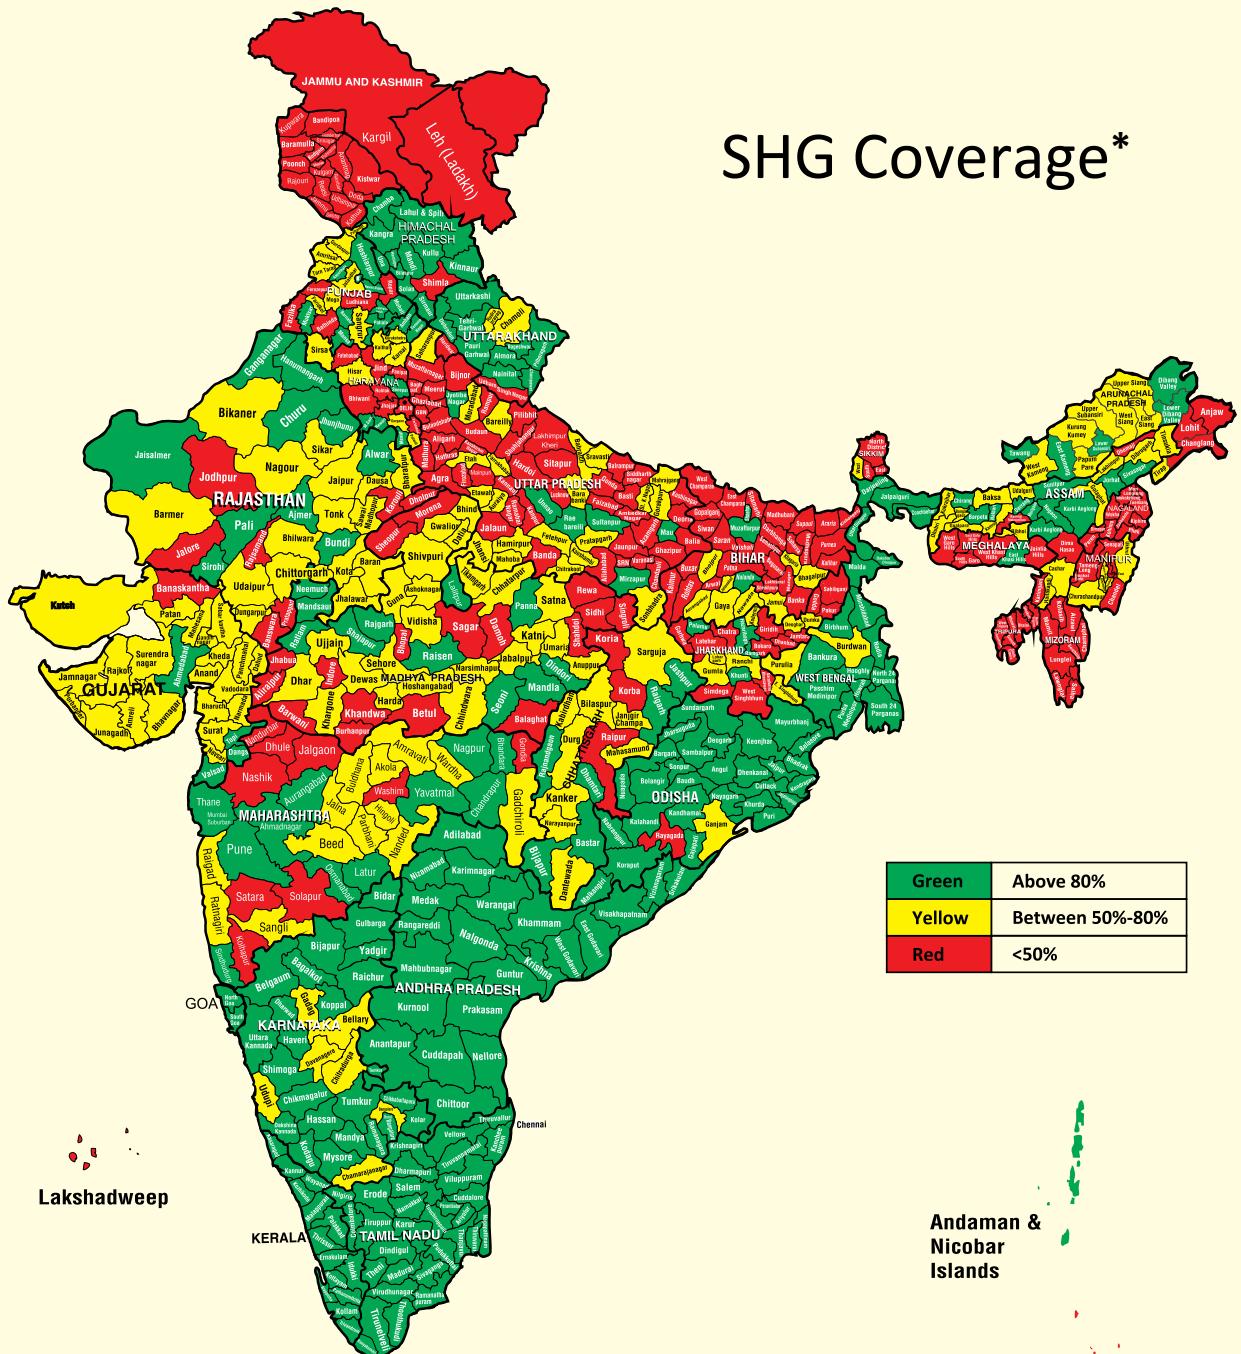

2. SHG-Bank Linkage Programme

Detailed analysis of the SHG-Bank Linkage Programme across the country and by financing agencies is being presented in this section. The analysis covers the various components of the programme, namely inclusive growth, savings, loans and recovery performance.

- 2.1** Under the SHG-Bank linkage programme, the coverage of rural households having access to regular savings through SHGs linked to banks came down by around 8% during the year to 95 million as on 31 March 2013. A similar decline of number of SHGs savings linked to Banks was also observed with only 73.18 lakh SHGs linked to Banks as against 79.60 lakh a year back. Number of SHGs having outstanding credit with banks, however, showed a marginal increase of 2% to 44.5 lakh as against 43.5 lakh the previous year. The average loan outstanding of SHGs with banks is ₹88,500 against ₹83,500 a year back. There has also been a 6% spurt in the number of SHGs getting fresh loans from banks during the year to 12.2 lakh (up from 11.5 lakh the previous year) and the quantum of fresh loans issued also showed a significant growth of about 24% during the year. The share of exclusive women SHGs in the total number of SHGs savings linked to banks now stands at 81% while the groups formed under the SGSY programme now constitutes 28% of the total number of groups. Table-1 gives the growth of SHGs - saving as well as credit linked - for the last 3 years, separately for all Groups, Groups formed under SGSY and exclusive Women Groups.

⁵The data published in this report is based on the returns submitted by reporting Banks as per the format prescribed by RBI.

SHG Coverage*

*The Mapping is based on coverage of Savings linked SHGs vs potential SHGs.

Table-1: Overall Progress under SHG-Bank Linkage for last 3 years

(₹ crore)

Particulars		2010-11		2011-12		2012-13	
		No. of SHGs (lakh)	Amount	No. of SHGs (lakh)	Amount	No. of SHGs (lakh)	Amount
SHG Savings with Banks as on 31 March	Total SHGs	74.62 (7.3%)	7016.30 (13.2%)	79.60 (6.7%)	6551.41 (-6.7%)	73.18 (-8.1%)	8217.25 (25.4%)
	Of which SGSY Groups	20.23 (19.4%)	1817.12 (40.6%)	21.23 (5.0%)	1395.25 (-23.2%)	20.47 (-3.6%)	1821.65 (30.6%)
	% of SGSY Groups to Total	27.1	25.9	26.7	21.3	28.0	22.2
	All Women SHGs	60.98 (14.8%)	5298.65 (17.8%)	62.99 (3.3%)	5104.33 (-3.7%)	59.38 (-5.7%)	6514.86 (27.6%)
	% of Women Groups to Total	81.7	75.5	79.1	77.9	81.1	79.3
Loans Disbursed to SHGs during the year	Total SHGs	11.96 (-24.6%)	14547.73 (0.01%)	11.48 (-4%)	16534.77 (13.7%)	12.20 (6.3%)	20585.36 (24.5%)
	Of which SGSY Groups	2.41 (-9.9%)	2480.37 (12.8%)	2.10 (-12.9%)	2643.56 (6.6%)	1.81 (-13.8%)	2207.47 (-16.5%)
	% of SGSY Groups to Total	20.1	17.0	18.3	16.0	14.8	10.7
	All Women SHGs	10.17 (-21.4%)	12622.33 (1.6%)	9.23 (-9.2%)	14132.02 (12.0%)	10.37 (12.4%)	17854.31 (26.3%)
	% of Women Groups to Total	85	86.8	80.4	85.5	85.1	86.7
Loans Outstanding against SHGs as on 31 March	Total SHGs	47.87 (-1.3%)	31221.17 (11.4%)	43.54 (-9.0%)	36340.00 (16.4%)	44.51 (2.2%)	39375.30 (8.4%)
	Of which SGSY Groups	12.86 (3.4%)	7829.39 (25.2%)	12.16 (-5.4%)	8054.83 (2.9%)	11.93 (-1.9%)	8597.09 (6.7%)
	% of SGSY Groups to Total	26.9	25.1	27.9	22.2	26.8	21.8
	All Women SHGs	39.84 (2.2%)	26123.75 (13.4%)	36.49 (-8.4%)	30465.28 (16.6%)	37.57 (2.9%)	32840.04 (7.8%)
	% of Women Groups to Total	83.2	83.7	83.8	83.8	84.4	83.3

(figures in the parenthesis indicates growth/decline over the previous year)

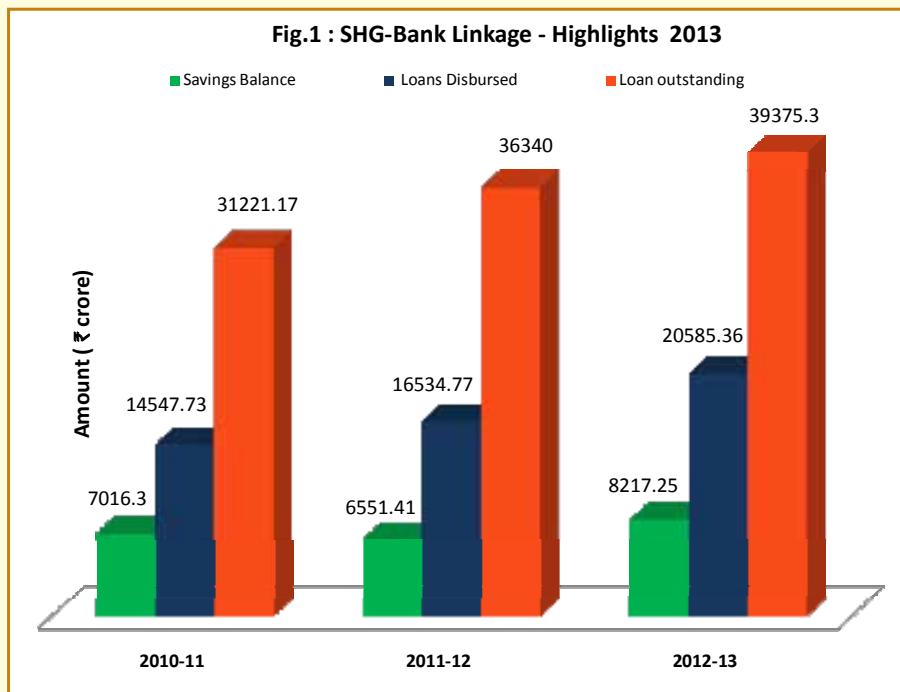

Some of the issues emerging out of the data shown above are:

- For the first time since the SHG-Bank linkage programme was launched, there is a decline in the number of SHGs savings linked with banks to the extent of 8.1% during the year, though the savings harnessed by SHGs grew by 25.4%. It is evident that this decline is inspite of more number of new SHGs savings linked to banks during the year pointing to existing SHGs gone out of the Banks linkage programme during the year. This decline can be attributed to banks now reporting only operative Savings accounts of SHGs and in few instances of banks closing down accounts with 'Nil' balances in SHGs savings accounts. Further, as banks were advised to switch to system generated (core banking solution) reporting only, this

has also led to “data cleansing” and more accurate reporting of operative (and not cumulative) SHG accounts. A scrutiny of the bank-wise reporting indicates the major decline in reporting by State Bank of India (reduced by 6.35 lakh SHGs, over the previous year). Besides, there has also been gradual decline in the number of SGSY groups savings linked with banks to the extent of 3.6% over the previous year with the gradual switch to NRLM by the Government.

- After nearly 3 years, the number of SHGs availing fresh loans by banks showed an increase of 6.3% during the year and the quantum of fresh loans issued increased by 24.5% over the previous year. This is despite the fact that there has been a significant reduction (-16.5%) in the fresh loans issued to SGSY groups. Broadly this is pointer to the fact that Banks are lending more to credible SHGs, providing repeat finances to SHGs with a sound credit history.
- The growth in the loan outstanding of SHGs with banks (8.4%) is almost 4 times the growth in the number of SHGs having outstanding loans with banks (2.2%). This is more prominent in SGSY SHGs which recorded a decline in SHGs with outstanding loans (1.9%), but recorded a 6.7% growth in the loan outstanding over the previous year. Thus, if the spurt in loan outstanding is attributed to the continuing trend of increase in NPAs of SHG loans with banks (discussed later), it should be viewed with utmost concern.

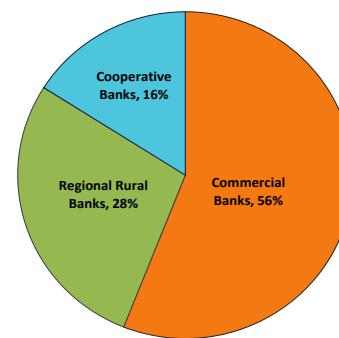

Statement I-A to I-E appended indicate the overall progress under the SHG-BLP and mFI-Bank Linkage Programme as on 31 March 2013 (In case of abridged version, refer to enclosed CD for Statements).

2.2 Savings linked SHGs

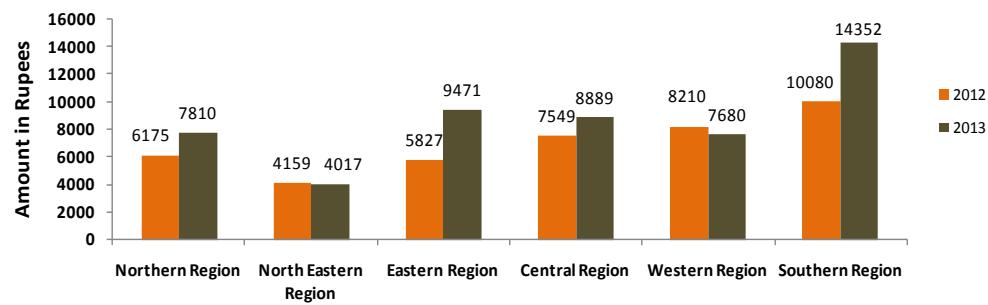

As already indicated the improved reporting of operating Savings accounts and gradual phasing out of SGSY scheme of GoI, has been the major reason for the decline. Amongst the regions, the Western region recorded the highest decline of 15% in the number of SHGs saving linked - mostly due to a near 17% fall in Maharashtra, followed by the Central region (representing some of the priority states) of 14% with Chhattisgarh recording as high as 24% decline and U.P. with 14% and the North Eastern States where the decline was almost 12%. Even Southern region - the pioneers in SHG-BLP recorded a near 4% decline in the numbers. The only major state recording a positive growth during the year was Karnataka with a near 3% increase.

On the other hand the savings balance of SHGs with banks shot up by over 25% during the year (₹8,217 crore as against ₹6,551 crore a year back). All except the North Eastern and Western region recorded higher savings bank balance with banks with Eastern States recording 47% increase while the Southern States accounting for 37% increase. Among the major States, West Bengal recorded the highest increase of 93% followed by A.P. at 70%. If the spurt in Savings balance with banks is read with decline in the number of savings linked SHGs, could be suggestive of enhanced savings by SHGs, including voluntary savings by SHG members. The average savings bank balance of SHGs with banks as on 31.03.2013 was ₹11,230 as against ₹8,230 for the previous year and southern region recording over ₹10,000 average (₹14,350). Among the major States, Karnataka SHGs maintain the highest saving account balance of nearly ₹18,000 per SHG closely followed by Andhra Pradesh.

Fig.2 :Savings Linked SHGs (Number) - Agencywise

**Fig.3 :Regionwise Savings Balance per SHG
2012 vs 2013**

Statements II A and Statement III indicate the Bank-wise and State-wise position of saving linked SHGs. (In case of abridged version, refer to enclosed CD for Statements).

2.3. Loans issued to SHGs by Banks

The declining trend in the number of SHGs being extended fresh loans by Banks for the last 3-4 years has been reversed this year with the number going up from 11.48 lakhs during 2011-12 to 12.20 lakh during 2012-13 (an increase of over 6%). The quantum of fresh loans issued during the year also went up by nearly 25% to ₹20,585 crore. A region-wise analysis, however, shows a disturbing feature with Southern and Central regions showing an increase of nearly 20% and 10% in the number of SHGs extended fresh loans and Northern region too with a marginal increase of 1.74%. While, all other regions points to negative growth in the numbers. Backward states like Bihar, Chhattisgarh and Jharkhand reported a decline of over 20% while North Eastern States recorded as high as over 50% decline. Even in the case of quantum of fresh loans issued, almost identical trend (only Southern region and Western region recorded a rise in the quantum) is visible. This leads to the question whether banks are getting more cautious to lend to SHGs in states other than in the Southern and Western region. This has serious implications while planning for extending the outreach of SHG-BLP to other regions. The average quantum of loans issued to SHGs was ₹1.69 lakh per SHG and this ranged from ₹70,600 in Eastern region to over ₹2,00,000 in Southern region. Among the agencies, Commercial Banks and RRBs recorded disbursement of over ₹1.8 lakh per group while their Cooperative counterparts recorded ₹0.91 lakh per SHG.

Fig. 4 A: Bank Loan disbursed to per SHG during 2012-13 - Regionwise

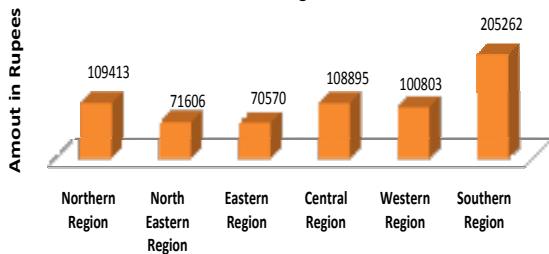

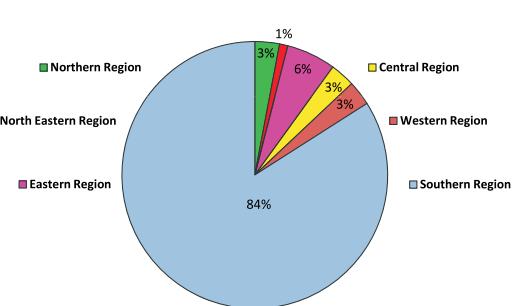

Fig. 4 B : Bank Loan Disbursed during 2012-13 Regionwise

Statements II B and Statement IV indicate the Bank-wise and State-wise position of fresh lending to SHGs by banks during 2012-13. (In case of abridged version, refer to enclosed CD for Statements).

2.4 Loans Outstanding against SHGs

The number of SHGs having loans outstanding against them from banks grew by 2.2% to 44.51 lakh as against 43.54 lakh a year back while the amount of loan outstanding against them grew by 8.4% and now stands at ₹39,375 crore (₹36,340 crore last year). The upward trend in credit linked SHGs is visible in all regions except in the North Eastern region where there was a decline of 10% in the number of SHGs and 20% in the amount of loan outstanding. The negative feature noticed during the year was, however, the decline reported by potential states like Chhattisgarh (-17% in number while an increase of 5.51% in loan outstanding), Bihar (-17% and -10.5% respectively) and Odisha (-12% while amount grew by 9%). The same States also reported decline in the number of savings linked SHGs as well and this should add to the concern of the health of SHG-BLP in these areas. The average loan outstanding against SHGs as on 31 March 2013 was ₹0.88 lakh - marginal increase from ₹0.83 lakh a year earlier. Average amount of loan outstanding ranged from ₹50,000 per SHG in Western region to ₹1.14 lakh in the Southern region. Gujarat recorded the lowest average of ₹30,000 per SHG while Andhra Pradesh reported an average of ₹1.29 lakh per SHG. Among the agencies,

microFinance Lecture Series : Experts Speak:

Shri Aloysius P. Fernandez, Executive Director, MYRADA :

"SHGs are for holistic development of the poor and building the social capital on the pillars of affinity, trust and mutual support will be the key for its success. Therefore, practices and the procedures which undermine the group approach are to be guarded."

Shri Kulandei Francis, Renowned Social Activist and winner of Ramon Magsaysay Award for Public Services: "Only through community action we can hope to improve health, sanitation, housing, livelihood and children's education among the poor. SHGs are a good platform for holistic approach in eradicating poverty of the rural poor. Interest free loans and other financial services alone do not make desired impact on the poor".

Shri N. Srinivasan, Development Consultant: "After nearly two decades of impressive growth, there is slackening of growth in SHG-BLP. While it has reached saturation point in the southern states, the growth is muted in other states as well while the loan impairment rates are on the rise. Time has come to identify the causes and address these problems". "There is need to promote voluntary savings among the members of SHGs linking them to higher level institutions while simultaneously introducing basket of loan products for them keeping subsidies away. There is also a need to ensure orderly development of Federation of SHGs as Business Correspondents of FIs while ensuring protection of customers' interests".

Smt. Jayshri Vyas, Managing Director, Sewa Bank : "Poor women are set on the path of self-reliance through micro saving, micro credit and micro insurance. Our endeavour should be to enable them to distinguish between these services and help them to take full advantage of all these products"

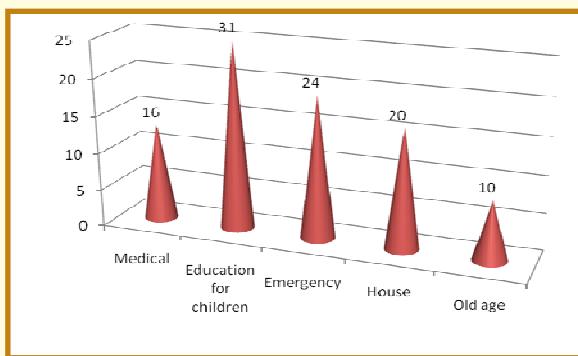

Shri. Ramakrishna N.K, Founder, Rang de : "There is a need to mobilise the vast potential for social investments by individual philanthropists and CSR funds to augment low cost credit to the poor backed by robust technology for maximising the outreach of micro credit".

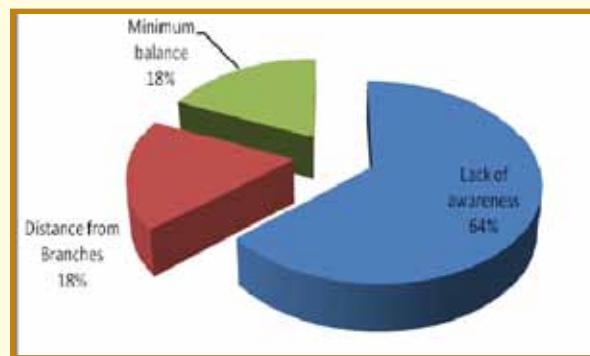

Action Research Pilot on Voluntary Savings

This pilot is being implemented in 10 districts across the states of Chhattisgarh, Kerala, Maharashtra, Tamil Nadu and West Bengal covering 50 SHGs each with a total of 631 SHG members. The objective was to facilitate the process of additional purpose oriented voluntary savings in the existing credit linked SHGs. The exercise was done to map cash flow of individual clients, surpluses if any, assess the financial needs of the individual client and provide appropriate savings linkages with the local bank as individual clients. Results show that the sources of income for SHG members are predominantly seasonal, while major part of their expenditure are routine in nature coupled with occasional contingencies. Majority of the SHG members appreciated their continuance in SHGs and the value it brings to them and their lives. The other findings included:

Why do poor save for?

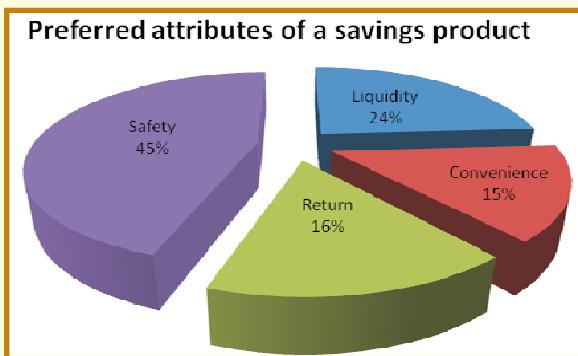

Why a Bank was not used earlier for saving?

Three major life cycle needs, in the order of priority, for which SHGs saved was education of children, emergency needs and housing.

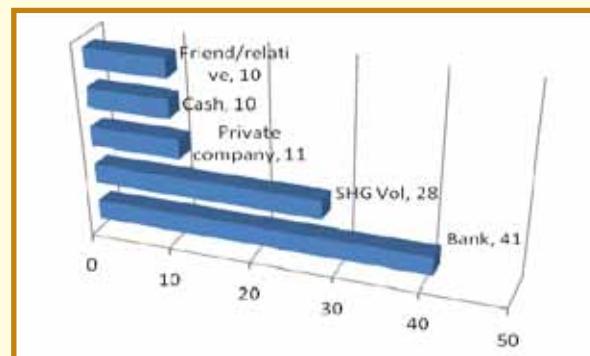

Lack of awareness about individual accounts, distance from branches and the need for maintaining minimum balance were major deterrents.

Preferred attributes to Savings for the poor?

Safety, followed by liquidity and convenience of keeping deposits were the preferred attributes, in that order, rather than returns on their savings.

Where poor prefer to park voluntary savings?

The order of preference for parking surpluses are banks, SHGs, Pvt. companies, cash etc.

Commercial Banks had an average outstanding loan of ₹1 lakh per SHG while RRBs had ₹0.79 lakh and Cooperative Banks had ₹0.46 lakh.

The percentage of SHGs credit linked (those having an outstanding balance of bank loans) to those savings linked (having a S.B. Account balance with banks) is 61% for the entire country and ranged between 68% for Southern States to 33% for the Western region. In the North Eastern region, Central region and Northern regions, nearly 50% of the savings linked groups are yet to be credit linked.

Assuming that the savings balance with banks constitute only 30% of the total savings of the SHGs (the balance being used for internal lending), the estimated credit being extended to SHG members from internal sources as well as from banks amount to ₹58,548 crore (₹19,173 crore + ₹39,375 crore). If recycling of loans by SHGs with shorter duration loans to members are also considered, the actual credit serviced by SHGs would be much higher.

Fig 5 A :Credit Linked SHGs - Regional Spread

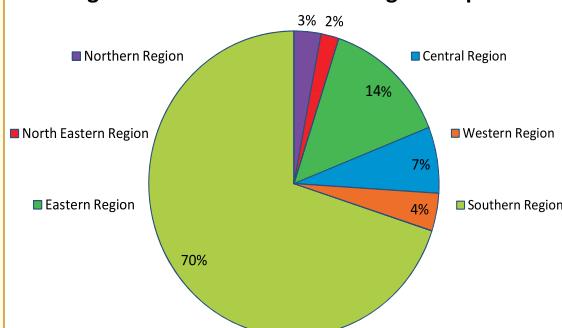

Fig. 5 B : Credit Linked SHGs - Agencywise

Commercial Banks Regional Rural Banks Cooperative banks

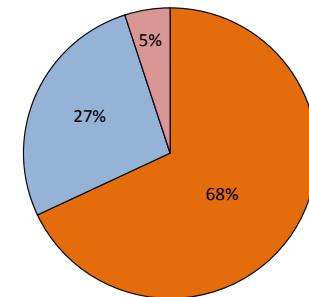

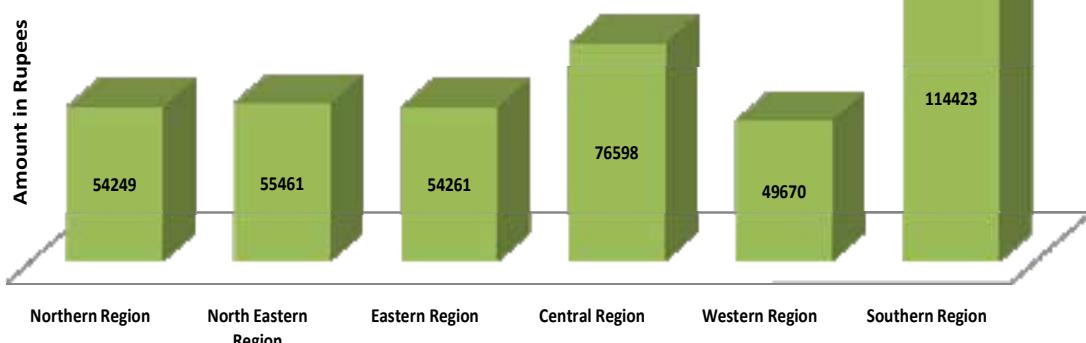

Fig. 5 C : Regionwise per SHG loan outstanding

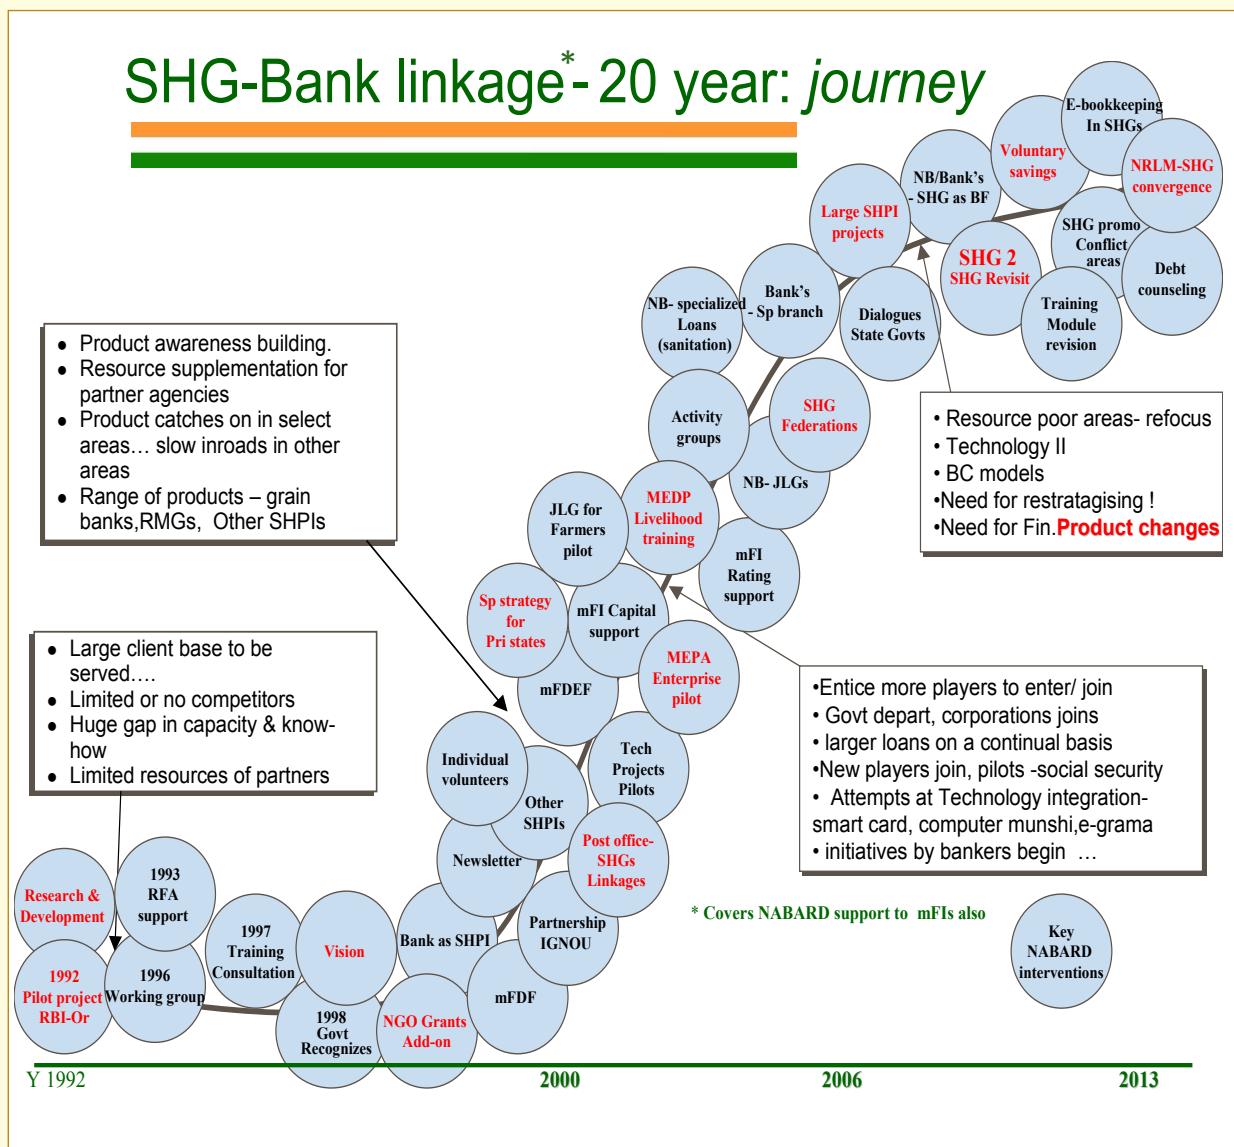

Statement II C and Statement V indicate the Bank-wise and State-wise position of the loans outstanding against the SHGs as on 31 March 2013. (In case of abridged version, refer to enclosed CD for Statements).

Credit velocity in SHGs

SHGs facilitate their member households first to pool their thrift/savings and then use these and borrowed resources from banks to give out small loans to needy members. With repayments collected at shorter intervals at the member level (intra-SHG transaction), loans are given out to its members. Thus, the approach serves to recycle loans within the group, as the bank loans are often taken for longer duration of 3 years. A sample test check of such credit turnover, within SHGs suggests that the credit taken from banks are often churned over about 1.7 times before it is fully repaid to bank, that too well before the due dates. Thus, the credit issued by banks to SHGs could actually serve as a multiplier i.e. in the year 2012-13 the credit disbursed to SHGs by banks is about ₹20,000 crore, while the actual impact of the credit disbursed is likely to the tune of over ₹34,000 crore.

SHG-Bank linkage*- 20 year: journey

2.5 Non-Performing Assets

The steady increase in the NPA against loans to SHGs continued unabated during the current year as well with overall NPA against loans to SHGs increased by 26% to ₹2,787 crore by March 2013 against ₹2,213 crore a year earlier. In percentage terms NPA (gross) increased from 6.09% last year to 7.08% during the current year. The increase in NPA barring Southern and Western region is to the extent of as high as 31% - 65% compared to last year. This is certainly an alarming situation considering the fact that the percentage of NPA loans was only 2.9% during 2009-10 whereas it crossed 7% during this year. The total NPA against loans to SHGs stood at ₹2,787 crore as on 31 March 2013 against the total outstanding loan of ₹39,375 crore. Among the regions, Southern region with a NPA of 5.11% (4.98% last year) was the lowest while Central region with an alarming 17.3% (13.2% last year) was the highest. What causes grave concern is the high NPAs in major states like Madhya Pradesh (21.16%), Uttar Pradesh (18.22%), Odisha (18.27%), Tamil Nadu (10.81%) and Kerala (12.38%). Table 2 and 3 illustrate the comparative position of NPAs against loans to SHGs by banks during the last 3 years while Fig. 6 A and 6 B gives the graphical presentation of the NPA position.

Table-2: Agency-wise NPAs of Bank Loans to SHGs

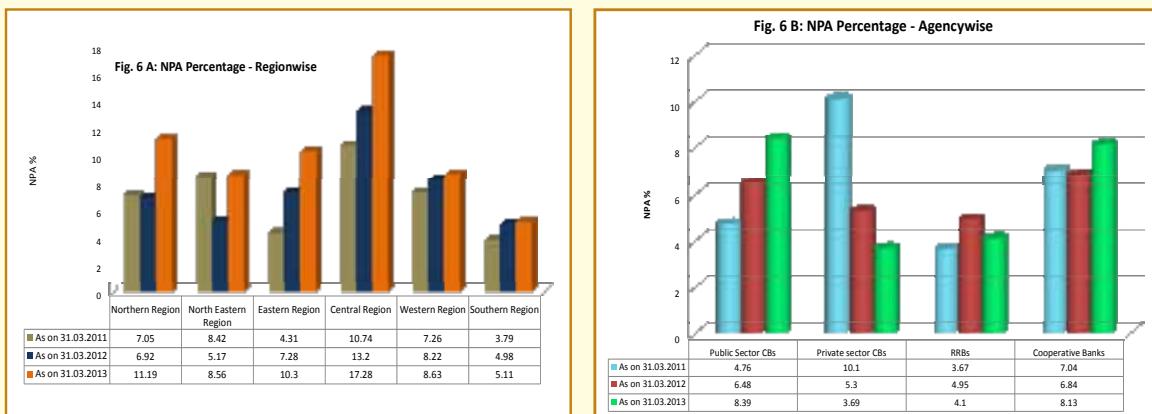

(₹ crore)

Agency	Loans Outstanding against SHGs - Position as on			Amount of NPAs as on			Percentage of NPAs to Loan Outstanding as on		
	31.03.11	31.03.12	31.03.13	31.03.11	31.03.12	31.03.13	31.03.11	31.03.12	31.03.13

All India Total	31221.17	36340.00	39375.30	1474.11	2212.73	2786.92	4.72	6.09	7.08

Analysis of NPA as percentage of loan outstanding against all SHGs vis-a-vis those against SGSY SHGs shows no significant correlation with wide variations across regions/agencies.

Statement II-D and Statement VI indicate the NPA position Bank-wise and State-wise as on 31 March 2013 (In case of abridged version, refer to enclosed CD for Statements).

At this juncture, it may be worthwhile, to see whether growth in NPAs is restricted to the SHG-BLP alone. In case of mFI sector, which had the advantage of large corporate debt restructuring in the previous years; the figures of restructured assets do not reflect in the reporting done by banks. It appears that the mF sector in general has not been insulated from the general trends in NPA expansion in banks portfolio. A comparison of the NPA figures in respect of SHG-BLP and mFI suggests that, both the segments of the microfinance have seen expansion in NPAs. In absolute terms, both the segments have recorded about ₹3,000 crore expansion of loan outstanding, while a sharper deterioration in the asset quality is visible in respect of bank loans to mFI (₹630 crore growth in NPA over previous year), compared to a ₹575 crore in respect of loans to SHG-BLP (Figure 6 C).

SHGs : Improving Quality of lives

Facilitating improved health and sanitation practices in SHGs

Studies had shown 87% of the households in the rural hinterlands of Nagpur and its neighbouring districts in Maharashtra don't have their own toilets and had to resort to open defecation. This was a highly embarrassing situation especially for teenaged girls and women in the area.

One of the partner NGOs of NABARD which conducted this survey, Nageswara Charitable Trust (NCT), had also mobilised women into SHGs in this area. Though the women members were very eager to have access to their own toilets, they were faced with two challenges 1) raising enough financial resources for establishing one 2) technical support for constructing the same. They expressed their desire to construct toilets if only they could have access to low cost and affordable toilets with low interest loans. NCT developed low cost structure with a traditional septic tank model costing around ₹12,000 ensuring the required privacy.

NCT approached NABARD to pilot a project for helping these members to construct toilets with loans at a reasonable interest rates and NABARD agreed to fund the same. So far, an amount of ₹360 lakh has been released to NCT for on-lending to SHG members. NCT has so far extended loans to over 3,000 SHG members in Maharashtra and Madhya Pradesh. More than 65% of the members who availed the loans from NCT for toilets expressed that the construction of toilets have had positive impact on their dignity and social status. Not only has the SHG members improved their hygienic and sanitation practices, but are also repaying the loans in time.

Covering risk and Securing lives of SHG members – An Initiative by Nadia District Central Cooperative Bank (DCCB), West Bengal

Nadia DCCB is in the forefront of organising and nurturing SHGs of poor women through their network of Primary Agricultural Credit Societies and credit linking them with DCCB. Already about 18000 SHGs have been organised by PACS and most of them have since been credit linked. Enthused after exposure visit of their officials to the Rajiv Gandhi Mahila Vikas Pariyojana (RGMVP) project in Rae Bareilly in Uttar Pradesh, the Bank introduced the system of developing local leaders who are also members of the SHGs as "Health Sajani" or "Health coordinators" for a group of 10-12 SHGs.

There are more than 850 Sajanis in their rolls at present, who coordinate with the bank for organising many welfare programmes like health camps, training in increasing production and productivity in agriculture etc.

The most notable initiative launched by the Bank is the introduction of a Welfare Fund for the members of all SHGs organised through their PACS. Each member of SHG is required to contribute ₹24 per year towards membership of the Fund. The Fund extends financial assistance upto ₹30,000 in the unfortunate event of the death / disability of the member / her spouse and also for meeting the expenses of higher education of the members' girl children. The bank has been able to enrol more than 35,000 members for the Fund and over 250 claims have so far been settled during the last 6 months. The bank aims to cover all the members of over 18000 SHGs organised by PACS in the district. When people elsewhere are clamouring for social security support from Governments, the Nadia DCCB has demonstrated that such innovative techniques for risk cover is possible for its members, without accessing traditional insurance product. The effective coverage and administration of the scheme is possible within the community and the SHGs. Sounds like an support mechanism which could easily be adopted by other SHGs / SHPIs elsewhere in the country.

SHGs : Improving Quality of lives

Solar Power lighting up SHG households

Round the clock power supply is still a distant dream for many poor rural households in Jharkhand and neighbouring Bihar state. Most of them still have to depend on kerosene lamps for lighting up their houses at dusk and night. Supply of kerosene is scarce and beyond the reach of poor households. The women members of SHGs promoted by Indian Rural Association (IRA), a partner NGO in Deoghar district of Jharkhand were quite a distressed lot, unable to take up supplementary income generating activities (IGAs) at home viz. handloom weaving, handicrafts making, agarbatti and papad making, etc. especially during late evenings and night because they could not afford to use of kerosene lamps for long hours. They were confident of enhancing their income from such supplementary IGAs if only they can find a viable alternative to light up their houses.

IRA encouraged the women SHG members in these villages to put up solar charging stations for recharging the solar lanterns at a nominal charge of ₹2 per user. SHG part-funded the solar recharging station, with government subsidy in tow, each charging unit costing around ₹1.20 lakh. Apart from recharging the solar lanterns, these charging stations also provide charging services for mobile phones @ ₹4 per recharge. Four such centralised charging stations have already become operational – with 30 and 90 lantern capacity.

The women in the nearby villages are happy that having a solar lantern at home ensures that they get enough light at night not only for their household chores and education of their children, but also for engaging themselves in some IGAs. Many of them have been able to make additional income of over ₹1,200 per month thanks to the solar lanterns they use at home. They no longer have to stand in the long queues for kerosene – they are now harnessing the power of Sun!

Understanding the value of Collectives

Accessibility to the outside world is critical challenge for sparsely populated and dispersed villages in hilly tracks of Uttarakhand State. This necessitates the farmers in these villages to produce all essential farm produce for their domestic consumption within the village itself. This practice is locally known as 'Baarah Anna' (12 Grains) and each farmer cultivates multiple crops like paddy, wheat, madua, til, mustard, potato, onion, rai, spices like coriander, chilly, ginger, turmeric, etc. in their farm. The production of individual farm produce being so small, the farmers in these villages find it very difficult to market their

tiny surplus outside the village and often fall prey to the unscrupulous traders who exploit them. The efforts in finding a solution to the problem of marketing of small lots of farm produce of these farmers resulted in adopting an "Aggregator model" for their produce and opening of marketing outlets in larger consumer markets. The farmers who are already members of SHGs in their villages formed a Federation of SHGs from nearby villages which acts as an Aggregator for their surplus produce with its own marketing outlets.

There are 4 such Federations collectively marketing their produce like vegetables, milk products, etc. The marketing outlets also sells items for daily consumption like tea, sugar, soaps, etc. to augment their income. They also propose to resort to bulk purchase of agricultural inputs like seed and fertilizers, etc. and sell them to members at reduced prices. The most commendable feature of this initiative is that no funding from external agency is sought for establishing the marketing outlets nor for meeting the working capital needs of their operation, but are funded through share capital contribution by farmers through their SHGs. The farmers are able to get a price advantage of over 150% of the prices offered by local traders and are quite optimistic that once the operations of the marketing outlets are stabilized and reach higher turnover, they would be reaping richer dividends.

2.5.1 Studies on NPAs of Bank loans to SHGs

Alarmed by the steady increase in the NPAs of loans to SHGs, NABARD undertook studies in two important states - Uttar Pradesh (where the NPA of SHG loans is nearly 18%) and Odisha to understand the underlying reasons for the spurt in NPAs of loans to SHGs. The study in UP was conducted by National Institute of Bank Management, Pune while the Odisha study was conducted inhouse by NABARD Regional Office. While the UP study covered a representative sample of high and low NPA districts within all regions (viz: Bundelkhand-Hamirpur, Central UP - Hardoi, Eastern UP - Gorakhpur, and Western UP - Bareilly) of the State, the Odisha study was confined to Jajpur district only. A majority of the SHGs in these areas being the groups organised under the SGSY programme of the Government, the study findings have more focus on the behaviour of these groups. The major findings from the U.P. state study were:

- Focus on group formation for availing subsidy from the Government, not self-help or group dynamics.
- Most SGSY groups not functioning at all - no regular meetings, no records of transactions, not trained / exposed to SHG functioning, no regular internal savings or lendings and members not even aware of the default of loans.
- SHPIs do not provide the escort services necessary to nurture the SHGs, rather more target oriented and confined to linking the groups with banks for disbursement of loan and subsidy.
- Banks have largely left the issue of monitoring / supervising the group functioning to the SHPIs, and there were no regular post disbursement follow-up.
- No proper credit appraisal or rating of SHGs was done before extending the loans by Banks
- No proper training either to the Bank Staff, nor to the SHPIs nor the SHG members before the groups are linked to Banks.
- Wilful default and external environment was not conducive to regular loan repayment.

The study suggests going back to the basics of SHG formation and nurturing by equipping the SHPI and Bank Staff with necessary skills / training and creation of a policy environment where SHGs are not seen as mere targets for achieving loan / subsidy disbursements and prolonged escort services by SHPIs while SHG members to be oriented towards the basic tenets of SHG-BLP with regular thrift and internal lendings and regular meetings and interactions.

The study in Odisha has the following findings:

- No regular meetings, no regular savings, no regular lendings within the groups.
- Poor appraisal of the SHGs by banks before credit is extended - no grading of SHGs, lending before the minimum period for ensuring group cohesion, etc.
- Widespread prevalence of middlemen / agents for SHG-Bank linkage - even for depositing the savings amount leading to pilferages.
- Banks not supervising / monitoring the loans.
- External environment not conducive to effect recovery in certain areas.

The study suggests an immediate end to middlemen in SHG-Bank linkage and deployment of credit counsellors and guardian NGOs to regularly nurture the groups and ensure that SHGs function to improve the standards of living of its poor members through group action.

Although the studies were confined to two important states only, most of the findings have pan India relevance for bankers and policy makers.

3. mFI-Bank Linkage Programme

3.1 micro Finance Institutions (mFIs) act as an important conduit for extending financial services to the sector in the country by raising resources from Banks and other institutions and extending loans to JLG / members. mFIs are of different legal entities viz. (1) NGO mFIs - registered under the Societies Registration Act, 1860 or the Indian Trusts Act, 1880; (2) Cooperative mFIs - registered under the State Cooperative Societies Act or Mutually Aided Cooperative Societies Act or Multi State Cooperative Societies Act; (3) NBFC mFIs incorporated under Section 25 of Companies Act, 1956; (4) NBFC mFIs incorporated under the Companies Act, 1956 and registered with RBI. The Reserve Bank of India has since notified guidelines for the lending operations to a new class of financial organisations named as NBFC - mFIs, subject to certain conditions regarding the capital to be employed, lendings to members, cap on interest to be charged and margin to be retained, etc. The RBI amendment of fixing margin caps of 12% over cost of borrowing rather than cost of funds to the mFI has done little to reduce cost of credit for poor. The loans extended to these NBFC-mFIs by banks now qualify for priority sector lending category.

3.2 Progress under mFI-Bank Linkage Programme

In addition to their internal resources, mFIs obtain bulk loans from Banks / other Financial Institutions for providing micro credit to its members.

Table-4: Progress under mFI-Bank Linkage Programme

(₹ crore)

Particulars	2009-10		2010-11		2011-12		2012-13	
	No. of mFIs	Amount	No. of mFIs	Amount	No. of mFIs	Amount	No. of mFIs	Amount
Loans disbursed by banks to MFIs	779 (34%)	10728.50 (187.4%)	471 (-39.5%)	8448.96 (-21.3%)	465 (-1.3%)	5205.29 (-38.39%)	426 (-8.4%)	7839.51 (50.6%)
Loans outstanding against MFIs as on 31 March	1659 (-13.4%)	13955.75 (178.6%)	2315 (39.5%)	13730.62 (-2.0%)	1960 (-15.3%)	11450.35 (-16.6%)	2042 (4.2%)	14425.84 (26.0%)
Fresh loans as % age to Loans outstanding		76.9		61.5		45.5		54.3

(figures in the parenthesis indicates growth/decline over the previous year)

Note: Actual number of mFIs availing loans from Banks would be less than the figures shown as most of mFIs avail loans from more than one Bank/more than one loan account.

After 3 years of the mF crisis, the mFIs seem to be on the path of regaining the confidence of the clients as well as with the lending institutions. Fresh loans issued to mFIs by Banks showed a 50% increase over the previous year low, while the number of mFIs having access to fresh loans declined by 8.4% indicating selective lending by the Banks. The spurt in loan outstanding in banks books is perhaps the highest compared to previous years. This could be largely due to the existing NPAs and large quantum of restructured assets (CDR), which continues to be a matter of concern.

The agency wise details of loans extended to mFIs are shown in Table-5 below.

Table-5: Loans to mFIs by Banks/Financial Institutions

Financing Agency	Period	Loans disbursed to mFIs during the year (₹ crore)		Loan outstanding against mFIs as on 31 March (₹ crore)	
		No. of mFIs	Amount	No. of mFIs	Amount
All Commercial Banks	2009-10	645	8038.61	1407	10095.32
	2010-11	460	7601.02	2153	10646.84
	2011-12	336	4950.98	1684	9810.98
	2012-13	368	7422.66	1769	12467.72
Regional Rural Banks	2009-10	46	24.14	103	52.22
	2010-11	9	4.16	23	42.01
	2011-12	113	13.28	128	37.51
	2012-13	14	4.58	153	70.66
Cooperative Banks	2009-10	0	0	3	0.01
	2010-11	NA	NA	NA	NA
	2011-12	4	1.61	19	4.75
	2012-13	3	4.00	18	6.83
SIDBI	2009-10	88	2665.75	146	3808.20
	2010-11	2	843.78	139	3041.77
	2011-12	12	239.42	129	1597.11
	2012-13	41	408.27	102	1880.63
Total by all agencies	2009-10	779	10728.50	1659	13955.75
	2010-11	471	8448.96	2315	13730.62
	2011-12	465	5205.29	1960	11450.35
	2012-13	426	7839.51	2042	14425.84

Among the agencies lending funds to mFIs, the major share belonged to Commercial Banks recording over ₹2,500 crore increased disbursements, while Small Industries Development Bank of India (SIDBI) recorded a meagre increase of ₹160 crore disbursement over that of the previous year.

Bank wise details of mFIs financed are given in Statement VII. (In case of abridged version, refer to enclosed CD for Statements).

3.3 Revolving Fund Assistance / Capital Support to mFIs by NABARD

NABARD had also introduced a scheme of ‘Bulk Lending to NGOs’ in 1993 for on-lending to small, micro household enterprises un-reached by banks. This was termed as Revolving Fund Assistance [RFA] and was primarily provided to NGOs and mFIs to experiment various credit delivery innovations. Under this approach select NGOs, which act as financial intermediaries were provided longer term lendable funds with service charges in the range of 6.5 to 9.0% p.a. In the initial 10 years of operation i.e. upto 2004, about 31 NGOs, mFIs were assisted. This support was also coupled with training of bankers to strengthen their understanding about the possibilities of funding through this new institutional forms. However, NABARD had clearly geared its efforts to support this initiative since the year 2005-06 to 2009-10. NABARD had an exposure to equity (as long term subordinated debt @ 3.5% p.a) to 41 institutions and had also provided RFA to about 48 institutions. These exposures were predominantly in the “non-profit” arena, with a limited exposure to “for profit” entities. But, there has been again a mixed response to this endeavor, while few “non-profits” remained as part-time lenders, few transformed their legal forms to

MUKTIDHARA - the dynamism of transition in Purulia District

West Bengal, state with a separate Department of Self Help Group and Self Employment (SHG & SE) and an exclusive Minister with the portfolio. NABARD, RO organised a special exposure visit for Shri Shanti Ram Mahto, Hon'ble Minister-in-Charge and Dr. Ariz Aftab, IAS, Secretary, SHG & SE, Government of West Bengal (GoWB) to the neighbouring State to study the Rajiv Gandhi Mahila Vikas Pariyojana (RGMVP) model of nurturing "Community Resource Persons" for SHG mobilisation. Triggered by the learnings a pilot project on sustainable livelihoods through SHGs has been designed and implemented by the SHG & SE Department, GoWB in Purulia district of West Bengal. NABARD, RO provided assistance for preparation of the project and a mission document for the project. The Hon'ble Chief Minister of West Bengal has blessed the project with a name 'MUKTIDHARA'. The project is expected to provide useful lessons to 'ANANDADHARA', the State Rural Livelihood Mission, West Bengal. Project expects to nurture and cover 5000 existing Self Help Groups under 'MUKTIDHARA' within a period of two years.

The ultimate objective of the project is to ensure monthly income of at least ₹3,000 per month to the members of SHGs by providing to them two or more livelihood options locally and also by converging other schemes and programmes being implemented by the GoWB for the welfare of the poor. The finance to SHGs would be through bank loan based on the Micro Credit Plan of SHGs. SLBC, West Bengal has issued guidelines to banks to support the project with adequate financing to SHGs with minimum credit limit of

₹1.00 lakh relaxing the rigid norms of financing four times of corpus of SHGs. The project is being implemented through a dedicated administrative structure created by the GoWB for the project with support for capacity building from NABARD. The project aims at fostering community structures and creation of internal social capital for sustainability of the SHGs. Monitoring system at state and district level vests jointly with GoWB and NABARD. The successful practices under 'MUKTIDHARA' will be upscaled in the State through the State livelihood Mission 'ANANDADHARA'. This is a unique convergence model of the State Department, state livelihood mission and NABARD to facilitate sustainable livelihoods through local community resource persons.

NBFC where they could source necessary equity for registering as NBFC. Even many 'for-profit' NBFCs operating largely outside Andhra Pradesh, did face the repercussions of the crisis had either hived off or closed down business. Though NABARD, had discontinued financing mFIs for the last 3 years, the outstanding against capital support provided stood at ₹15 crore to 40 entities and the debt outstanding was ₹33 crore against 40 entities.

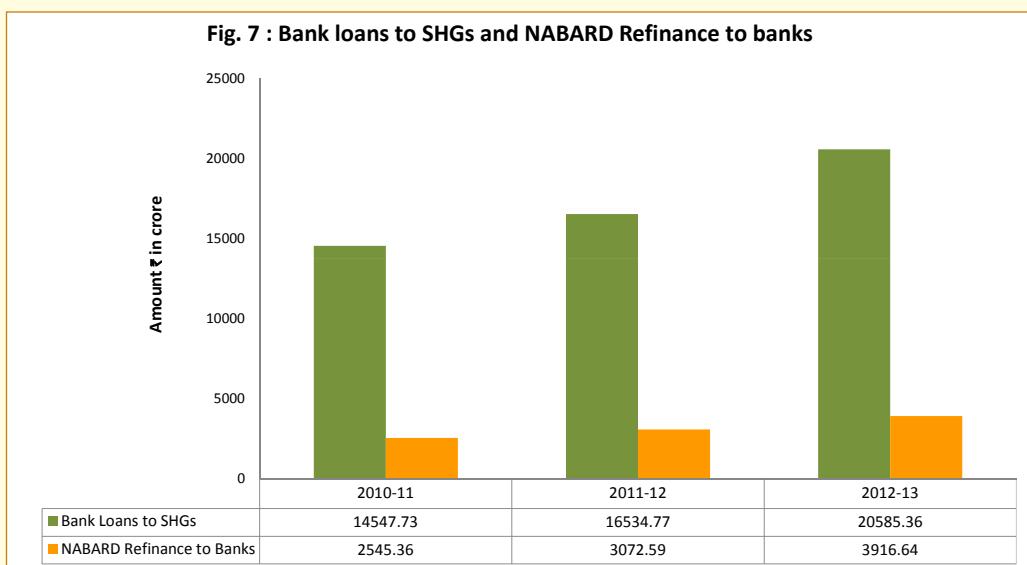

4. NABARD as microfinance Facilitator

- 4.1** NABARD continued with its role as the main facilitator and mentor of microfinance initiatives in the country, particularly the SHG-BLP initiative. Its focus was on bringing in various stakeholders on a common platform and build capacity among them to take the SHG-BLP movement forward while extending 100% refinance to all banks participating in the programme. A large number of seminars, workshops and training programmes were organised to create awareness about the microfinance programme among all the stakeholders – the bankers, Government agencies, NGO partners, Panchayati Raj Institutions and more importantly the SHG members themselves. The NGO sector which played the key role of organising and nurturing the SHGs as the Self Help Promoting Institutions – later joined by many others including the rural financial institutions, Farmers' Clubs, SHG Federations, etc. - were encouraged with training and promotional grant assistance by NABARD for SHG promotion. The phenomenal growth of SHG-Bank linkage programme during the last 20 years owe a great deal to these promotional efforts actively supported by NABARD and participated by different stakeholders. With the SHG-BLP now more than two decades old, NABARD is in the process of redefining the role of SHG-BLP as an effective financial inclusion tool by helping the financial institutions to extend their outreach through SHGs while at the same time helping the SHGs to actively involve itself in promoting livelihood activities for the rural poor. A glimpse of the facilitator role played by NABARD in this sector during 2012-13 is given below.

4.2 Refinance to Banks

NABARD has been extending 100% refinance to banks for their lending to SHGs since the SHG-BLP was launched. Initially, this was intended at concessional rates to encourage the banks to actively participate in the Programme. As the banks gained confidence in lending to SHGs and realised the business potential in extending microcredit through SHGs, they have been deploying their own funds. SHGs had been instrumental in bringing in more business for the financing banks by way of a credible client base and as promoter of rural banking. They also helped in extending other financial services like housing, insurance, etc. The gap between the total loans issued by banks to SHGs and the refinance extended by NABARD for such loans started widening (Fig.7). The refinance support from NABARD, however, continues to supplement the resources for the lending institutions. During 2012-13, NABARD extended refinance to the extent of ₹3,917 crore against ₹3,073 crore disbursed during the previous year. Cumulative disbursement of refinance by NABARD for SHG lending now stands at ₹22,396 crore.

4.3 micro-Finance Development and Equity Fund

The micro-finance Development and Equity Fund (mFDEF) continued to be utilised for promotion of various micro-finance activities. During 2012-13, ₹33.50 crore was utilised for various promotional activities like promotion, capacity building and other interventions. With large number of on-going promotional projects with 3700 NGO and other partners, NABARD had committed expenses ruling in the range of ₹200 crore. However, with no contributions from other agencies, the Government of India and Reserve Bank of India suggested closure of the microFinance Development and Equity Fund (mFDEF) as on 31 March, 2013. A separate portion of the Financial Inclusion Fund (FIF) will be used for supporting capacity building of stakeholders, promotion of SHGs / livelihood groups (JLGs), studies / seminars, publicity / campaign and all activities incidental thereto, with effect from 01 April 2013.

4.3.1 Support for training and capacity building of microFinance clients

NABARD has been continuously supporting training and capacity building of different stakeholders of SHG-Bank Linkage Programme such as bankers, NGOs, government officials, SHG members and trainers. During 2012-13, NABARD organised and supported close to 6,000 training and supportive interventions covering 1.85 lakh participants of various stakeholders. Thus, cumulatively over 30.34 lakh stakeholders have been trained. The region wise position of support extended by NABARD for training and capacity building is given in Statement - VIII(A) and VIII(B). (In case of abridged version, refer to enclosed CD for Statements).

4.3.2. Grant Support to Partner Agencies for Promotion and Nurturing of SHGs

Ever since the SHG-BLP was launched by NABARD, the Self Help Promoting Agencies such as NGOs, Banks (RRBs, DCCBs), Farmers' Clubs and Individual Rural Volunteers (IRVs) are being extended grant support to organise and nurture SHGs of the poor. In fact, the phenomenal growth of SHG-BLP in the country, is the result of the painstaking efforts put in by these agencies in forming and nurturing SHGs especially in areas where the concept never existed. The financial support extended by NABARD to various SHPIs during the year is indicated in Table-6.

Table-6 : Grant Support to Partner Agencies

(₹ lakh)

Agency	Cumulative Sanction up to 31.03.2013		Achievement up to 31.03.2013	
	Amount	SHG Nos.	Amount	SHG Nos.
NGOs	19932.18	526699	6647.68	362803
RRBs	744.99	49250	185.43	45852
Coop. Banks	1046.23	73634	353.50	51266
IRVs	460.12	26883	77.04	11228
Farmers' Clubs	40.63	2544	20.40	9832
SHG Federation	28.61	250	1.85	46
PACS	397.45	8533	4.28	85
Total	22650.21	687793	7290.18	481112

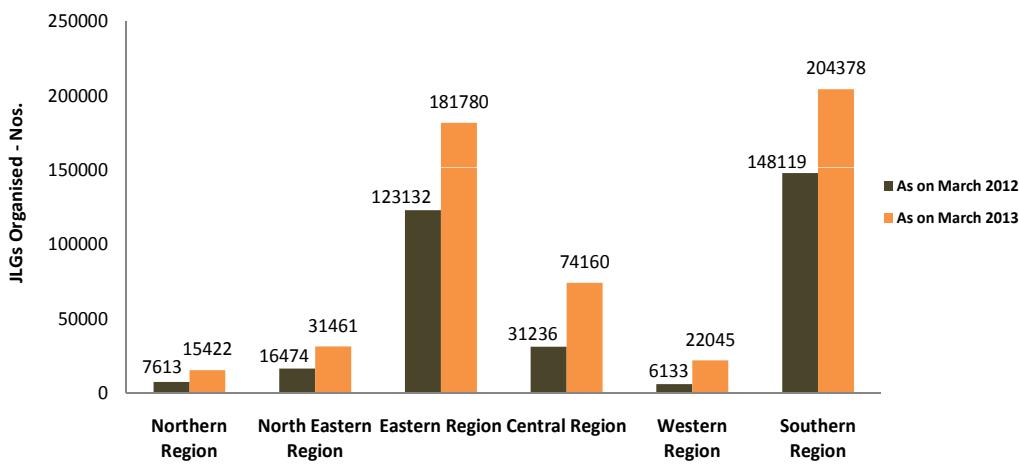

Agency-wise, State-wise details of grant assistance extended to partner agencies have been given in Statements – IX-A to IX-H. (In case of abridged version, refer to enclosed CD for Statements).

4.4 Other Ongoing Initiatives

4.4.1 Financing of Joint Liability Groups

Besides, the SHG-BLP, NABARD has been supporting formation of informal groups like Joint Liability Groups (JLGs) with 4-10 members. These are basically livelihood groups who come together on the strength of the mutual guarantee to seek livelihood finance for pursuing an economic activity. This was basically targeted at mid-segments clients engaged in similar economic activities like crop production and who are willing to jointly undertake to repay the loans taken by the Groups. Unlike in the case of SHGs, JLGs are intended basically as credit groups for tenant farmers and small farmers who do not have proper title of their farmland or security to offer, but needed longer term credit or seasonal credit for pursuing their economic activities. Thus, regular savings by JLG is purely voluntary in nature and there was no intermediation of credit by its members. Loans were given based on mutual guarantee to individuals in a group or as group loans. NABARD besides extending financial support for awareness creation / capacity building of all stakeholders also extends 100% refinance support to Banks on their lending to JLGs. About 1,96,500 JLGs were promoted and credit linked during 2012-13, as against 1,91,500 JLGs promoted during the previous year. There has been expansion in credit flow to JLGs to the extent of ₹1,837 crore as against ₹1,700 crore (8% increase over the previous year), taking the cumulative number of JLGs to 5,29,246 and the cumulative loan disbursed to JLGs to ₹4,683 crore. The growth of JLGs in the country is less skewed than the SHGs. Although the Southern States top the list with over 2 lakh JLGs credit linked so far, Eastern region closely follows with 1.81 lakh JLGs. In terms of actual loans disbursed, however, Southern States account for over 60% of the total loans disbursed.

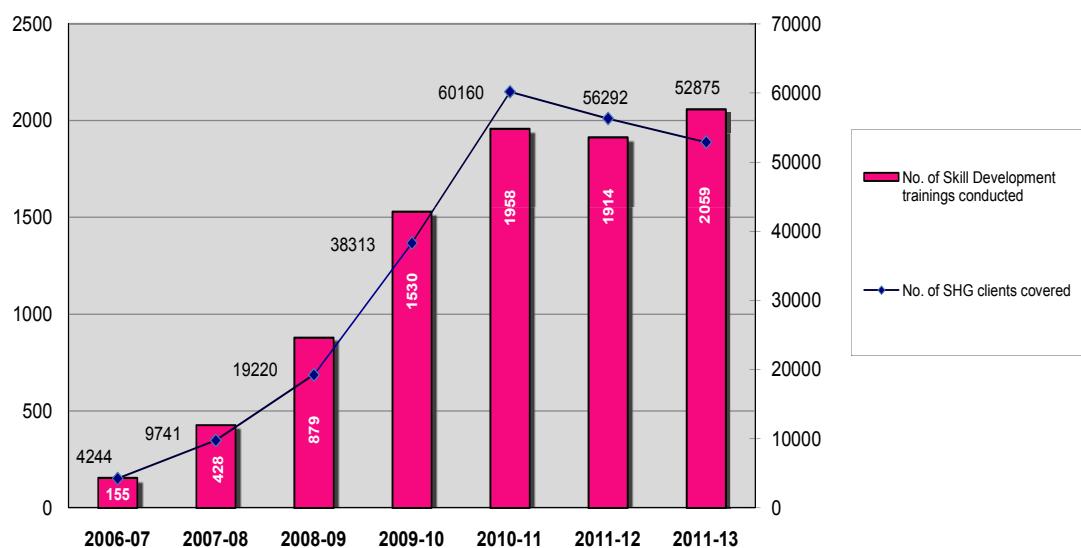

Fig. 8 : JLG - The Leap Forward

4.4.2 Micro Enterprise Development Programme

NABARD has been supporting need based skill development programmes for matured SHGs which already have access to finance from banks. Often the requirements for skill development or refinement of skill sets of the SHG members is a felt need which NABARD supports through appropriate resource NGOs and other support organisations locally. These are on-location skill training programmes which attempts to bridge skill deficits or facilitates optimization of production activities already pursued by the SHG members. These could interalia include optimisation of rice production through improved techniques like "System of Rice Intensification" or maintenance of milch animals, embroidery, tailoring etc. Brief inputs of enterprise related skills does promote entrepreneurial talents of members of matured SHGs to set up and run micro enterprises as a livelihood option. Grant is provided to eligible training institutions and SHPIs to provide skill development training in farm/non-farm/service sector activities leading to establishment of micro enterprises either on individual basis or on group basis. Nearly 9000 skill upgradation training programmes have been conducted under these initiatives covering about 2.41 lakh members of matured SHGs. Most of the trained SHG members have since started their journey to become promising entrepreneurs by availing loans from their SHGs.

Fig. 9: Year-wise No. of Skill Development Trainings conducted and No. of SHG clients covered

4.5 New Developments / Initiatives during the year:

4.5.1. Scheme for Promotion of Women SHGs in backward districts of India

With the object of scaling up SHG promotion activities in “Left Wing Extremism” (LWE) affected and backward districts in the country, a special initiative was commenced by NABARD with the Govt. of India. The programme entails promoting “Women” Self Help Groups in 150 districts with the assistance of anchor NGOs and support organisations identified for the purpose. The USP of the programme is that the anchor NGOs serve as “Business Facilitators” for banks, promoting, handholding and monitoring the functioning of the SHGs for a fee to be collected from the client. This is expected to ensure continuing interest of the anchor institutions. The agency will also be responsible for repayment of loans by SHGs to banks. The programme also provides for an institutional arrangement by way of Memorandum of understanding (MoU) between an anchor NGO in each of the district and the financing bank to ensure continuous credit flow. The anchor NGOs are expected to map the potential for promotion of SHGs and attempt to saturate the allocated district with quality WSHGs in a limited time span. This approach is expected to facilitate sustained financial inclusion by extending banking services to women members of SHGs, promote sustainable livelihood opportunities to the members and facilitate effective implementation of other social development programmes for women through SHGs. Already MoU has been entered into by 239 anchor NGOs with the banks, leading to formation and savings linking of 70,000 groups and credit linkage of 18,000 groups with the banks. The overall progress under the scheme is encouraging. NABARD is also supporting the anchor NGOs with capacity building and also promotional grant assistance. During the year 2012-13, an amount of ₹16.94 crore has been utilised towards promotional grant assistance to anchor NGOs and for training and capacity building of stakeholders from Women SHG Development Fund maintained with NABARD and contributed fully by GoI.

4.5.2. Studies Initiated during the Year:

Livelihood Mapping Studies for SHG members

GIZ assisted studies to map major livelihood activities in five backward districts of Bihar, Chhattisgarh, Madhya Pradesh, Karnataka and Uttar Pradesh were taken up. Besides, mapping the potential in these districts and attempt to map value chain gaps, exploring possible end to end solutions in respect of financial and non financial services for SHGs and their members, were also taken up during the year. The studies were conducted with the support of different agencies in Gaya in Bihar, Mandla in M.P., Bastar in Chhattisgarh, Shravasti in Uttar Pradesh and Gulbarga district in Karnataka. The field studies have been concluded and the reports are under finalization. The livelihood activities being mapped in these districts are:

Name of the District	Livelihood Activities Mapped for Study
Gaya (Bihar)	Goat-rearing, Incense-stick making and System of Rice Intensification Paddy (SRI)
Bastar (Chhattisgarh)	Cashew, Tamarind cultivation, Poultry and service sectors viz. Electrician and Masonry.
Mandla (Madhya Pradesh)	Mahua, Vegetables cultivation, Goatery and service sectors viz. Electrician & Mobile repairing.
Shravasti (Uttar Pradesh)	Paddy, Wheat cultivation and Dairy
Gulbarga (Karnataka)	Red Gram, Jowar cultivation and Dairy

The findings of these studies are expected to help in planning livelihood interventions and in providing the necessary inputs for establishing sustainable livelihood interventions for SHG members.

4.5.3. Pilot Projects Launched

Addressing over-indebtedness of poor through SHG-BLP

The rural poor, especially in resource poor regions of the country, are highly vulnerable to over-indebtedness and are often not in a position to come out of the vicious circle of indebtedness, without external support. The SHG-BLP platform could, perhaps, be used to deal with this problem faced by the poor. In order to test the efficacy of SHG-BLP platform to address this issue, a pilot project has been sanctioned to APMAS to cover 500 over-indebted households (with > 3 debts outstanding) in Kamareddy Cluster of Nizamabad district in Andhra Pradesh. Under this pilot project, the identified households will be helped to improve their income flow through better livelihood activities with suitable capacity building efforts and by swapping high cost debts with loans under SHG-BLP, establishment of enterprises, savings etc. The experience gained from this pilot is expected to help replicate this model in other areas facing similar issues.

Access and affordability of credit with/without mentoring for poverty reduction

One of the critical questions in the quest for upscaling SHG-BLP for reducing poverty is whether credit alone or credit with mentoring helps the poor in coming out of poverty and to assess how many repeated doses of credit are required to uplift the poor out of poverty. NABARD has engaged ‘Rang De’ a non-profit organisation engaged in supporting rural entrepreneurs / individuals by providing them access to the low cost loans. A pilot project covering 300 poor households across Maharashtra, Madhya Pradesh and Bihar has been selected for this purpose. The outcome of this pilot project is expected to throw useful insights into these crucial questions and help formulate policies where SHG-BLP can be leveraged to attack poverty.

4.6 Training Programmes

SHG-Bank Linkage Programme (SHG-BLP) – Revisiting the training modules

NABARD has been supporting and organizing training programmes on SHG-BLP for various stakeholders for quite sometime. Keeping in view the need for ensuring continued relevance of the training module to the fast changing environment in which the programme operates and to broad base the contents of these programmes for increasing number of stakeholders, NABARD undertook a Comprehensive Training Need Assessment of all stakeholders with the assistance of GIZ (German Technical Cooperation). The findings of this detailed assessment were deliberated upon with all stakeholders at a National Level Training Consultation Meet on SHG-Bank Linkage training. Based on the deliberations in the meet, a revised Hand Book on Training Module for SHG-BLP stakeholders was prepared, distributed to all stakeholders. This Hand Book is expected to improve the quality of training being imparted under the programme.

Exposure programme on “SHG members as BC/BF for FIs”

Vidarbha Konkan Gramin Bank (VKGB), supported by NABARD, has been successful in effectively leveraging local community members of SHGs to act as Business Facilitators/ Business Correspondents for the Bank to enhance its business and to ensure a sustainable inclusive growth. This model has been recognized as highly successful and scalable by other FIs. NABARD therefore arranged “Exposure Visit to VKGB model” of officials of

various Commercial Banks & RRBs. More than 100 officers from Commercial banks and RRBs, were given exposure under this programme during the year.

Training to Partner NGOs as SHPIs by Resource NGOs

A number of NGOs engaged in promotion and nurturing of SHGs under SHG-BLP are found lacking in necessary expertise in functioning effectively as SHPIs thereby raising questions on quality and reach in SHG nurturing programme. To address this problem faced by smaller NGOs working as SHPIs under the programme, NABARD has initiated a special short term training (cum attachment) programme for such partner NGOs with resource NGOs at the State level. This programme will focus on practical training on SHG formation and nurturing by Resource NGOs to the selected volunteers of smaller partner NGOs.

Engaging resource NGOs/TEs for training stakeholders in SHG-BLP

In order to ensure the quality of trainings, instructions have been issued to ensure that only those training organizations having adequate professional trainers and possessing quality training materials be selected as resource NGOs in the States. The financing banks are also being persuaded to organize bank-specific training programmes for their functionaries with the help of these resource trainers.

4.7 Simplified KYC Norms for SHGs

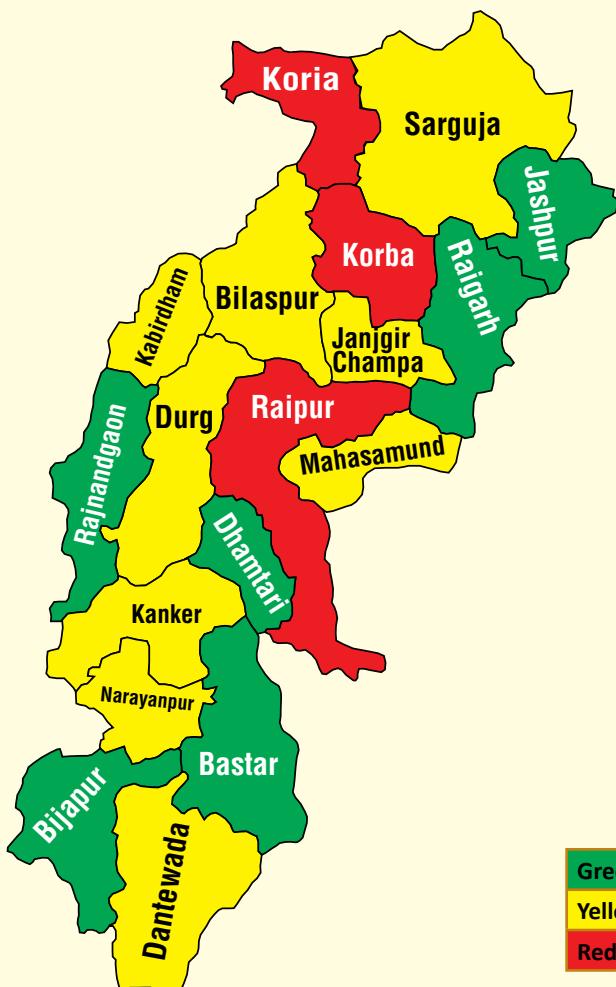

Reserve Bank of India vide circular No. DBOD. AML.BC. No. 65/14.01.001/ 2012-13 dated December 10, 2012 has clarified that KYC verification of all the members of SHG need not be done while opening the savings bank account of the SHG and KYC verification of all the office bearers would suffice. It has also been clarified that once KYC norms are satisfied by the SHG while opening the savings account, no separate KYC compliance is required while extending loans to the same SHG

4.8 Upscaling of Tablet PC based accounting for SHGs

A web based cum Tablet PC based book-keeping solution for SHGs named 'Tablet PC based accounting for SHGs' was successfully piloted in Nandurbar district of Maharashtra. It is used by field staff and even by SHGs themselves to feed their data and meeting resolutions from which different financial reports can be generated by themselves and also by a person sitting at other place from the internet. It also generates various analytical graphs which helps in monitoring of the groups/loans on a real time basis. It also has an option to store the data on the Tablet which can be pushed up to the centralised server when internet connection is available. The pilot is being upscaled to cover 50,000 SHGs. NABARD will be providing a grant support upto ₹60.00 lakh to enable the SHGs to migrate to the system. It will be implemented in various states with our technology partner and other partner SHPIs.

Fact sheet : Priority States

CHHATTISGARH : SHG coverage

	Potential Rural households to be covered	27.24 lakh		
	Rural households covered* (SHG: Savings linked)	12.80 lakh		
	Districts with low coverage of SHGs	12 out of 18 districts		
4	Average savings / SHG (₹)	6230 National Average : 11230 Highest Priority State : West Bengal : 12388
